

DAILY INTERNSHIP REPORT

Submit this report on InnoTrack by 5:00 PM every day

SECTION 1 — STUDENT INFORMATION

Student Name	P Koteswara Rao	VTU ID	28129
Branch / Dept.	B.Tech Computer Science Engineering(Data science)	Internship Day No.	1
Date	01/06/2026	Track (1 / 2 / 3 / 4)	Track 1
Project Title	Loan Default Risk Predictor	Mentor Name	Jayasri

SECTION 2 — WHAT DID YOU LEARN TODAY?

Topic / Concept Learned (e.g. Random Forest, Flask routing, model saving...)

Today I learnt about how to install python. How to install vs code. How to create GitHub account and respiratory.

I have learnt about variables, datatypes and input in python. I have seen different types of datatypes.

I saw the example and simple programs of python. I have learnt how to upload the links and files in github repo and report in the company website.

SECTION 3 — WHAT DID YOU BUILD TODAY?

Code / Output / Feature Built (e.g. Built EDA section, trained model, created Flask form...)

First I have seen the example codes of python and three exercise tasks I have to do. They are a Personal Student Information System, an Age Calculator, and a BMI Calculator.

Using the sample codes I have written the task programs, and I run it in the vs code. Then I got the output for the codes. These tasks helped me apply concepts such as variables, data types, user input, and f-strings in real-world scenarios.

The code have run without errors and successfully completed. In the code we can change the values when ever we want. I gained hands-on experience in creating interactive Python applications and performing basic calculations.

SECTION 4 — PROBLEMS FACED & HOW YOU SOLVED THEM

Error / Problem (e.g. *ValueError when scaling — solved by dropping nulls first*)

I got github problem and vs code problem.

How I Fixed I (Describe your solution or what help you took)

It's taking me so much time to connect vs code to github. I fixed some how tried to connect

SECTION 5 — PLAN FOR TOMORROW

What will you do tomorrow? (e.g. *Train Random Forest, compare with Logistic Regression, start Flask app*)

I have plans for tomorrow to next level to the python. In that I am going to learn about the looping and conditional statements. And python functions also.

I am planning to improve my project into further development.

SECTION 6 — LINKS & ATTACHMENTS

GitHub Repo / Commit Link	https://github.com/koteswaraoposa-pixel/Innolift-intership
Model Result / Colab Link	
Deployed App Link (if any)	
Additional Notes	

```

PS C:\Users\HP\OneDrive\Desktop\innolift intership> & 'c:\Program Files\Python311\python.exe'
'c:\Users\HP\.vscode\extensions\ms-python.debugpy-2026.6.0-win32-x64\bundled\libs\debugpy\launc
her' '54903' '--' 'c:\Users\HP\OneDrive\Desktop\innolift intership\code 1.py'
Enter your name: P kotrswarao
Enter your age: 19
Enter your college: vel tech university
Enter your branch: cse data science
Enter your CGPA: 8.8
My name is P kotrswarao. I am 19 studying cse data science at vel tech university with 8.8 CGPA
PS C:\Users\HP\OneDrive\Desktop\innolift intership> ^C
PS C:\Users\HP\OneDrive\Desktop\innolift intership>
PS C:\Users\HP\OneDrive\Desktop\innolift intership> c:; cd 'c:\Users\HP\OneDrive\Desktop\innol
ift intership'; & 'c:\Program Files\Python311\python.exe' 'c:\Users\HP\.vscode\extensions\ms-py

SECTION 7 — SELF RATING FOR TODAY

Area	1	2	3	4	5
Understanding of today's concept	☐ 1	☐ 2	☐ 3	☒ 4	☐ 5
Hands-on coding confidence	☐ 1	☐ 2	☒ 3	☐ 4	☐ 5
Progress on my project	☐ 1	☐ 2	☒ 3	☐ 4	☐ 5
Overall satisfaction with today	☐ 1	☐ 2	☐ 3	☒ 4	☐ 5
